0. สรุปคลาสและการตัดสินใจ

สาย	Secret Class	อาวุธประจำคลาส	สีหลัก	ทรัพยากร
UB	**Wyrmblood Reaver**	Cinderfang (ดาบโค้งดำแดง มีลาวาไหลตามคม)	crimson · black · molten orange	HP ตัวเอง + WYRM FURY
AW	**Pyre Sage**	Furnace Orb (ลูกแก้วที่มีหัวใจลาวาเต้นอยู่ข้างใน)	orange · gold · white-hot	HEAT 0-100
AG	**Magmaheart Juggernaut**	Forgeheart Gauntlets (ถุงมือเหล็กหลอมสองข้าง ไม่มีโล่)	obsidian black · lava orange · ember red	MOLTEN CORE + เกราะ 3 ชั้น

การตัดสินใจ: พลังแบบ "เพดานสูงกว่า" (คนทั่วไปเล่นได้ราว 90% ของ Class 2 ส่วนคนเล่นเก่งได้ราว 105% ในสถานการณ์ที่คลาสถนัด) · ต้องผ่าน **Class 2 ของสายนั้นก่อน** + LV 50 + Heart of Varkharon · เปลี่ยนกลับไปเป็น Class 2 ได้

ไฟล์ที่ต้องสร้างต่อคลาส (ตั้งชื่อตามโฟลเดอร์เดิม)

ประเภท	ไฟล์	เก็บที่
ตัวละคร	idle, walk, ATK1, ATK2, DASH, HIT, SK1-SK7, UT	`desgin/class cr/<UB|AW|AG>/<WR|PS|MJ>/`
VFX	ATK (เอฟเฟกต์ตีปกติ), SK1-SK7, UT	`desgin/VFX/<UB|AW|AG>/<WR|PS|MJ>/`
ไอคอน	SK1-SK7, UT + passive 2 อัน	`desgin/ICON SKILL/<UB|AW|AG>/<WR|PS|MJ>/`

SK1-SK6 = สกิลปุ่ม 1-4 (เลือก 4 จาก 6) · **SK7 = สกิล Q** · UT = Ultimate (Juggernaut ไม่มีการกลิ้งหลบ ไฟล์ DASH ของคลาสนี้คือท่า **Eruption Step**)

ลำดับการสร้าง (แนะนำ)

1) สร้าง **ตัวละครฐาน** (หัวข้อ 1) ให้นิ่งก่อน → 2) ใช้ภาพนั้นเป็น reference ทุกครั้งที่สร้าง Skill Animation (Master Prompt หัวข้อ 2 + บล็อกสกิล) → 3) สร้าง VFX แยก (Master Prompt หัวข้อ 3 + บล็อก VFX) → 4) ไอคอน (หัวข้อ 4) · สร้าง **1 สกิลต่อ 1 ภาพ** ห้ามรวมหลายสกิลในภาพเดียว

1. MASTER PROMPT — ตัวละครฐาน (Character Base)

Secret Class เป็นร่าง "ตื่นเลือดมังกร" ของสายเดิม ให้ **อัปโหลดภาพตัวละคร Class 1 ของสายนั้น** (UB / AW / AG) เป็น reference ด้านสไตล์และสัดส่วน แล้ววางบล็อก CHARACTER ของคลาสต่อท้าย prompt นี้

```
Use the uploaded character sprite sheet as the STYLE and PROPORTION reference.

Create a NEW character design for ECLIPSE ONLINE, a 2D isometric pixel-art MMORPG:
the "Dragonblooded" awakened form of the same class line — the same person after
absorbing the heart of a fire dragon.

KEEP from the reference: pixel density, outline thickness, head size, body proportions,
camera angle, shading style, overall height, and the class silhouette family.
CHANGE: armor, clothing, signature weapon and color palette to match the CHARACTER block below.

Dragon fire theme: ember cracks, molten veins, small horn / scale / wing motifs,
glowing orange-red light. Keep it readable at small size — no tiny noisy details.

SPRITE SHEET (walk / base sheet):
ROW 1 = FRONT / SOUTH
ROW 2 = BACK / NORTH
ROW 3 = LEFT / WEST
ROW 4 = RIGHT / EAST
6 frames per row, 48x48 px per frame, total 288x192 px.
Keep the character centered, same scale, same camera distance, never crop.

TRUE TRANSPARENT BACKGROUND ONLY.
NO background, floor, environment, character shadow, enemy, UI, text, labels, grid,
borders, separator lines, watermark, or logo.

PIXEL ART:
Crisp pixel art, hard pixel edges, no anti-aliasing, no blur, no 3D rendering,
no realistic rendering, no painterly rendering.

Output ONLY the clean sprite sheet, ready for HTML5 Canvas 2D.

[CHARACTER BLOCK]
```

CHARACTER — Wyrmblood Reaver (อัปโหลดภาพ UB)

```
CLASS: WYRMBLOOD REAVER (secret class of the Umbral Sword line)
CHARACTER: lean agile swordsman, light layered armor of black leather and dark crimson
dragon scales, tattered black-red half cape shaped like a torn dragon wing,
glowing molten-red vein lines running along both arms and the neck,
small swept-back dragon horn ornaments on a dark hood or hair.
SIGNATURE WEAPON: Cinderfang — a single curved black sword, crimson edge,
thin line of molten lava flowing along the blade, ember glow at the guard.
PALETTE: black, deep crimson, blood red, molten orange accents. Small amount of violet
kept from the Umbral line.
MOOD: dangerous, wounded, feral — someone who fights while bleeding.
```

CHARACTER — Pyre Sage (อัปโหลดภาพ AW)

```
CLASS: PYRE SAGE (secret class of the Astral Weaver line)
CHARACTER: robed fire mage, long layered robe in charcoal and ash grey with burnt
orange hem that glows like embers, gold dragon-scale shoulder mantle,
floating ember sparks around the hands, hair lit at the tips like cinders.
SIGNATURE WEAPON: Furnace Orb — a dark iron cage orb held in one hand (or floating
beside the hand) with a beating molten core inside, orange-white light leaking out.
PALETTE: charcoal, ash grey, burnt orange, gold, white-hot core highlights.
MOOD: controlled power on the edge of overheating — calm face, burning hands.
```

CHARACTER — Magmaheart Juggernaut (อัปโหลดภาพ AG)

```
CLASS: MAGMAHEART JUGGERNAUT (secret class of the Aegis Guardian line)
CHARACTER: huge heavy brawler, bulky obsidian-black plate armor with cracks of glowing
lava between the plates, a molten core glowing in the chest plate, horned helm,
NO SHIELD. The armor looks like cooling volcanic rock.
SIGNATURE WEAPON: Forgeheart Gauntlets — two oversized black-iron gauntlets, knuckles
glowing orange, small vents leaking ember sparks.
PALETTE: obsidian black, dark grey, lava orange, ember red, small gold trim kept from
the Aegis line.
MOOD: unstoppable, forward-leaning, heavy — always advancing.
```

2. MASTER PROMPT — Character Skill Sprite Sheet

(ข้อความเดียวกับ Prompt Book เดิม) ใช้ภาพตัวละครฐานจากหัวข้อ 1 เป็น reference แล้ววางบล็อกสกิลต่อท้าย

```
Use the uploaded character sprite sheet as the EXACT and ONLY visual character reference.

Create a combat skill animation sprite sheet for the exact same character for ECLIPSE ONLINE, a 2D isometric pixel-art MMORPG.

The uploaded image is the locked character model. DO NOT redesign the character.
Preserve exactly: face, eyes, hairstyle, hair shape, skin tone, head size, body proportions, armor, clothing, cape, boots, gloves, accessories, signature weapon, weapon shape, weapon size, color palette, outline thickness, pixel density, shading style, lighting style, and silhouette.

ONLY change: combat pose, movement, weapon movement, casting movement, defensive pose, and class-specific skill VFX.

SPRITE SHEET:
ROW 1 = FRONT / SOUTH
ROW 2 = BACK / NORTH
ROW 3 = LEFT / WEST
ROW 4 = RIGHT / EAST
6 frames per row.
Normal Skill = 48x48 px per frame, total 288x192 px.
Ultimate = 96x96 px per frame, total 576x384 px.
Keep the character centered, same scale, same camera distance, and never crop.

ANIMATION:
Frame 1 = preparation / neutral
Frame 2 = wind-up
Frame 3 = action begins
Frame 4 = strongest action / impact
Frame 5 = follow-through
Frame 6 = recovery

TRUE TRANSPARENT BACKGROUND ONLY.
NO background, floor, environment, character shadow, enemy, UI, text, labels, grid, borders, separator lines, watermark, or logo.

PIXEL ART:
Crisp pixel art, hard pixel edges, no anti-aliasing, no blur, no 3D rendering, no realistic rendering, no painterly rendering.

CHARACTER CONSISTENCY:
Treat the uploaded reference as a locked model sheet. The exact same character must appear in every frame. Do not add or remove equipment. Do not change hairstyle, proportions, colors, or weapon. Only animate the existing character.

Output ONLY the clean sprite sheet, ready for HTML5 Canvas 2D.
```

ตัวอย่างการใช้: [MASTER PROMPT] + บล็อกสกิล (เช่น CLASS: WYRMBLOOD REAVER / SKILL: Crimson Fang ...)

2A. WYRMBLOOD REAVER — Skill Blocks

CLASS IDENTITY: Feral blood-fire assassin who pays for power with his own life. Visual: black, deep crimson, molten orange, blood-red trails turning into embers. Movement is fast and savage, slightly hunched.

idle — ยืนพัก

```
CLASS: WYRMBLOOD REAVER
SKILL: Idle
Breathing idle stance, sword held low and back, molten veins on the arms pulse softly; loopable.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

walk — เดิน

```
CLASS: WYRMBLOOD REAVER
SKILL: Walk
Prowling forward walk cycle, low predatory posture, torn wing-cape swaying; loopable 6-frame
cycle.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

ATK1 / ATK2 — โจมตีปกติ (คอมโบ)

```
CLASS: WYRMBLOOD REAVER
SKILL: Basic Attack 1
Quick diagonal downward slash with the curved sword; short crimson-to-ember trail on frame 4.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

```
CLASS: WYRMBLOOD REAVER
SKILL: Basic Attack 2
Rising reverse upward slash that follows Attack 1; body twists, wider crimson arc on frame 4.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

DASH / HIT

```
CLASS: WYRMBLOOD REAVER
SKILL: Dodge Dash
Low fast forward lunge-dash, body almost horizontal, faint blood-red afterimage; agile, not heavy.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

```
CLASS: WYRMBLOOD REAVER
SKILL: Hit Reaction
Short flinch backward when struck, molten veins flash bright for one frame, quick recovery.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

SK1 Crimson Fang

```
CLASS: WYRMBLOOD REAVER
SKILL: Crimson Fang
Explosive forward dash-through bite slash; body passes the target line on frame 4; a fang-shaped
crimson trail, small blood droplets drawn back toward the character (life drain).
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

SK2 Wyrm Rend

```
CLASS: WYRMBLOOD REAVER
SKILL: Wyrm Rend
Heavy two-handed overhead cleave; long wind-up with the sword raised and veins blazing,
crushing downward slash on frame 4 with a wide molten crimson crescent.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

SK3 Blood Pact

```
CLASS: WYRMBLOOD REAVER
SKILL: Blood Pact
Self-empowerment: the character drags the blade across his own forearm, blood turns into
rising red flame that wraps the body; strongest flare on frame 4; aggressive ready pose at the
end.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

SK4 Scale Shed

```
CLASS: WYRMBLOOD REAVER
SKILL: Scale Shed
Defensive crouch; crimson dragon scales burst out of the veins and lock around the body
as a translucent red scale shell on frame 4; character remains clearly visible.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

SK5 Cinder Vein

```
CLASS: WYRMBLOOD REAVER
SKILL: Cinder Vein
Wide flick of the sword that throws a cone of burning blood forward; the spray ignites into
small flames on frame 4; follow-through with the sword extended.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

SK6 Hemorrhage

```
CLASS: WYRMBLOOD REAVER
SKILL: Hemorrhage
Character clenches a fist and pulls it back sharply; crimson energy is yanked inward from all
around, then a ring of blood-red bursts on frame 4; cruel, concentrated motion.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

SK7 (Q) Vein Burst

```
CLASS: WYRMBLOOD REAVER
SKILL: Vein Burst
All molten veins blaze, the character spreads both arms and releases a circular blast of
crimson fire around the body on frame 4; red embers fall back into the body (healing).
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

UT Dragon Blood Awakening — ULTIMATE

```
CLASS: WYRMBLOOD REAVER
SKILL: Dragon Blood Awakening - ULTIMATE
The character roars; a huge crimson dragon silhouette made of blood-fire rises behind him and
wraps around his body, eyes and veins burn white-hot; strongest on frame 4; ends in a feral
battle stance surrounded by red flame. Dramatically larger than normal skills.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

2B. PYRE SAGE — Skill Blocks

CLASS IDENTITY: Fire mage managing an inner furnace — builds heat, holds it at the edge, then vents it. Visual: charcoal, burnt orange, gold, white-hot core. Casting is controlled and precise; the bigger the spell, the brighter the hands glow.

idle — ยืนพัก

```
CLASS: PYRE SAGE
SKILL: Idle
Calm standing pose, Furnace Orb hovering beside the hand and pulsing like a heartbeat,
ember sparks drifting up from the robe hem; loopable.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

walk — เดิน

```
CLASS: PYRE SAGE
SKILL: Walk
Composed walk cycle, robe swaying, orb following the hand with a slight delay; loopable 6-frame
cycle.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

ATK1 / ATK2 — โจมตีปกติ

```
CLASS: PYRE SAGE
SKILL: Basic Attack 1
One-hand push cast: the orb thrusts forward and releases a small fireball on frame 4.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

```
CLASS: PYRE SAGE
SKILL: Basic Attack 2
Sweeping side cast with the other hand, a short arc of flame leaves the fingertips on frame 4;
the hand that releases the fire must stay clear of the body.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

DASH / HIT

```
CLASS: PYRE SAGE
SKILL: Dodge Dash
Short gliding step backward-to-forward in a puff of ash and embers; light and quick.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

```
CLASS: PYRE SAGE
SKILL: Hit Reaction
Short flinch, orb flickers dim for one frame, robe snaps back; quick recovery.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

SK1 Dragonfire Bolt

```
CLASS: PYRE SAGE
SKILL: Dragonfire Bolt
Fast forward cast; the orb flares and launches a dragon-head-shaped fire bolt on frame 4;
release clearly in front of the body.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

SK2 Flame Pillar

```
CLASS: PYRE SAGE
SKILL: Flame Pillar
Raise the orb high, then slam the free hand downward pointing at the ground ahead;
the casting pose is strongest on frame 4 (the pillar itself is a separate VFX).
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

SK3 Cinder Wall

```
CLASS: PYRE SAGE
SKILL: Cinder Wall
Wide horizontal sweep of both arms across the front, drawing a line of fire;
full sweep on frame 4, steady guarded pose at the end.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

SK4 Meteor Ember

```
CLASS: PYRE SAGE
SKILL: Meteor Ember
Heavy cast: both hands lift the orb overhead, heat builds (glow brightens each frame),
then the arms throw forward and upward on frame 4 summoning a falling meteor.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

SK5 Cool Breath

```
CLASS: PYRE SAGE
SKILL: Cool Breath
The character stops, closes the eyes and exhales; the orb dims, steam and grey ash
rise from the shoulders and hands; calm, vulnerable pose — clearly NOT an attack.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

SK6 Flame Brand

```
CLASS: PYRE SAGE
SKILL: Flame Brand
Quick pointing cast with two fingers; a small burning dragon sigil shoots forward on frame 4;
precise and fast.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

SK7 (Q) Vent

```
CLASS: PYRE SAGE
SKILL: Vent
The character pulls the orb into the chest, curls in, then throws the arms open;
all stored heat explodes outward in a ring on frame 4; ash falls in the recovery frames.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

UT Heart of the Dragon — ULTIMATE

```
CLASS: PYRE SAGE
SKILL: Heart of the Dragon - ULTIMATE
The orb opens and its molten heart rises above the character; a huge fiery dragon made of
flame coils around the character, robe and hair burn white-hot; maximum blaze on frame 4,
ends in a powerful casting stance. Dramatically larger than normal skills.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

2C. MAGMAHEART JUGGERNAUT — Skill Blocks

CLASS IDENTITY: Lava-armored brawler who never retreats; power and armor grow while advancing. Visual: obsidian black, lava orange, ember red. Every motion is heavy and forward-leaning; impacts crack the ground.

idle — ยืนพัก

```
CLASS: MAGMAHEART JUGGERNAUT
SKILL: Idle
Wide heavy stance, gauntlets clenched, chest core glowing and dimming slowly, small steam
puffs from the armor cracks; loopable.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

walk — เดิน

```
CLASS: MAGMAHEART JUGGERNAUT
SKILL: Walk
Heavy stomping walk cycle, shoulders rolling, each step pushes forward; loopable 6-frame cycle.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

ATK1 / ATK2 — โจมตีปกติ

```
CLASS: MAGMAHEART JUGGERNAUT
SKILL: Basic Attack 1
Straight right-hand punch with the full body behind it; knuckles flare orange on frame 4.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

```
CLASS: MAGMAHEART JUGGERNAUT
SKILL: Basic Attack 2
Left hook following the punch, torso twists, short ember arc on frame 4.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

DASH = Eruption Step / HIT

```
CLASS: MAGMAHEART JUGGERNAUT
SKILL: Eruption Step
Raise one foot high and stomp down hard in place (NOT a roll or dash); the armor cracks blaze
on frame 4 as a burst of lava pushes outward; short heavy recovery.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

```
CLASS: MAGMAHEART JUGGERNAUT
SKILL: Hit Reaction
Barely moves when struck: small shoulder jolt, a few rock flakes chip off the armor; instant
recovery.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

SK1 Magma Charge

```
CLASS: MAGMAHEART JUGGERNAUT
SKILL: Magma Charge
Lower the shoulder and charge forward like a battering ram; body fully committed on frame 4
with a molten trail behind the feet; heavy skid stop.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

SK2 Molten Fist

```
CLASS: MAGMAHEART JUGGERNAUT
SKILL: Molten Fist
Raise one gauntlet, then punch straight down into the ground on frame 4; cracks of lava
spread around the fist; slow rise back up.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

SK3 Forge Grip

```
CLASS: MAGMAHEART JUGGERNAUT
SKILL: Forge Grip
Lunging grab with one gauntlet, then a full-body over-the-shoulder slam to the ground on
frame 4 (no enemy drawn — the grabbing hand closes on empty air); heavy impact pose.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

SK4 Reforge

```
CLASS: MAGMAHEART JUGGERNAUT
SKILL: Reforge
Stand firm and strike both gauntlets together in front of the chest like a hammer on an anvil;
molten light flows over the armor plates and seals the cracks on frame 4.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

SK5 Hammerfall

```
CLASS: MAGMAHEART JUGGERNAUT
SKILL: Hammerfall
Crouch, leap upward with both fists raised together (frames 2-3), smash down double-fisted
on frame 4 with a big crack of lava; heavy landing recovery.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

SK6 Searing Taunt

```
CLASS: MAGMAHEART JUGGERNAUT
SKILL: Searing Taunt
Beat both gauntlets against the chest core and roar; heat waves and embers burst outward on
frame 4; challenging, wide-armed pose.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

SK7 (Q) Eruption Step

ใช้ภาพเดียวกับ DASH ด้านบน (ท่ากระทืบพื้น) ไม่ต้องสร้างใหม่ ถ้าอยากได้ท่าแยกให้ใช้บล็อก DASH เปลี่ยนแค่ชื่อ SKILL

UT Volcanic Heart — ULTIMATE

```
CLASS: MAGMAHEART JUGGERNAUT
SKILL: Volcanic Heart - ULTIMATE
The chest core erupts: the character throws the head back and both arms out, lava bursts from every armor crack and hardens into a larger blazing shell; a volcano-like column of fire rises on frame 4; ends in a towering forward battle stance. Dramatically larger than normal skills.
Keep the exact character design from the uploaded reference.
Use only the existing signature weapon and equipment.
Do not add enemies or environment.
Transparent background only.
The skill animation must remain readable, consistent, and production-ready for HTML5 Canvas.
```

3. MASTER PROMPT — VFX Sprite Sheet

(ข้อความเดียวกับ Prompt Book เดิม) วางบล็อก VFX ต่อท้าย · ไม่ต้องอัปโหลดภาพตัวละคร

```
Create a production-ready 2D pixel-art VFX sprite sheet for ECLIPSE ONLINE, a fantasy isometric
MMORPG.

VFX ONLY. Do NOT create a character, enemy, weapon, environment, floor, scenery, or UI.
The VFX must be independently layerable over a character sprite in HTML5 Canvas 2D.

SKILL:
[SKILL NAME]
CLASS:
[CLASS NAME]
VFX TYPE:
[SLASH / DASH / PROJECTILE / AOE / BARRIER / MAGIC / EXPLOSION / HEAL / ETC.]

Design a clear, readable game effect with a strong silhouette and obvious start -> charge ->
impact ->
end timing.

PIXEL ART:
Crisp pixel art, hard pixel edges, no anti-aliasing, no blur, no 3D, no painterly rendering,
no glossy modern illustration style. Use hard pixel clusters and controlled color ramps.

COLOR:
Primary: [PRIMARY COLOR]
Secondary: [SECONDARY COLOR]
Accent: [ACCENT COLOR]
Do not introduce unrelated colors.

SPRITE FORMAT:
Directional VFX: 4 rows (South, North, West, East), 6 frames per row, 48x48 px/frame,
288x192 px sheet.
Large / Ultimate: 96x96 px/frame, 576x384 px sheet.
Non-directional AOE / ground VFX may use a single animation row when possible.

ANIMATION:
Frame 1 = initial appearance / charge
Frame 2 = energy forming
Frame 3 = expansion / movement
Frame 4 = maximum effect / impact
Frame 5 = follow-through / particles
Frame 6 = fade out

TRUE TRANSPARENT BACKGROUND ONLY.
NO white, black, pink, or colored backdrop. NO floor, ground texture, scenery, character shadow,
UI,
text, labels, borders, grid, watermark, or logo.
The VFX must be independent of the character. Do not create a fake character silhouette.
Do not include hands, body, face, armor, or weapon.

Output ONLY the clean VFX sprite sheet, ready for direct use in HTML5 Canvas 2D.
```

บทเรียนจากรอบก่อน: ให้วาดแต่ละเฟรม**อยู่กลางช่องของตัวเอง** และเว้นช่องว่างระหว่างเฟรม (VFX ที่ล้นเข้าช่องข้างๆ ตัดยาก) · ถ้าพื้นหลังออกมาเป็นตารางหมากรุกปลอม ยังใช้ได้ แต่พื้นโปร่งใสจริงดีที่สุด
