ECLIPSE ONLINE

SKILL + VFX PROMPT BOOK

สร้างจากไฟล์ `docs/design/art-prompts-*.md` วันที่ 2026-10-04 · 2 คลาส
สร้างใหม่ได้ด้วย `node tools/promptBook/build.mjs`

วิธีใช้

- **ซิลด์ท่า (สกิล)** — แนบรูปตัวละคร + MASTER PROMPT ตัวละคร + SKILL BLOCK หนึ่งบล็อก
- **VFX** — ไม่แนบรูป + MASTER VFX PROMPT + VFX BLOCK หนึ่งบล็อก
- **ทำทีละสกิล** — หนึ่ง skill = หนึ่ง sheet หนึ่งคำขอ อย่ารวมหลายสกิล
- **4 แถว × 6 เฟรม** — Row 1 front/south, Row 2 back/north, Row 3 left/west, Row 4 right/east
- พื้นหลังโปร่งใสจริง · ไม่มีตัวหนังสือ · ไม่มีเงา · ไม่มีพื้น · ห้ามแตะซื่อคนอื่นใน prompt
- **สองขั้นตอน**: สร้างตัวละครคุณภาพสูง -> CHIBI STYLE PROMPT -> ได้สไตล์เกม -> เอา sheet เดินเป็นต้นแบบ
- เอกสารนี้สร้างจากไฟล์อัตโนมัติ — **แก้ไฟล์ markdown** แล้วรัน build ครั้งเดียวจบ
- ความจำที่ผู้ช่วยใช้อยู่: สกิล eo-art-prompting / eo-feature-workflow

ECLIPSE ONLINE — Art Prompts: Dragon Secret Classes (tier 4)

Three secret classes (tier 4) born from the dragon boss Varkharon. All three share one design language: dragon-blood red + obsidian black + ember orange glow, with a dragon-motif trim that is subtle enough to still read as each parent line.

Place raw art at `desgin/class cr/DRG/` (all three classes in one folder), and VFX at `desgin/VFX/DRG/`.

Shared negative prompt (every image)

```
text, letters, words, logo, watermark, signature, frame, border, card, UI panel, checkerboard,
background scenery, multiple characters, cropped feet, cropped head, blurry, low resolution,
extra limbs, extra arms, photo, 3d render, cel-shaded vector art
```

```
**Universal style clause** (append to every positive prompt):
```

```
top-down 3/4 view dark-fantasy action RPG pixel art, crisp clean pixel edges, no anti-aliasing,
no perspective distortion, game asset sheet, black background, character centred
```

```
---

## 1. Wyrmblood Reaver — `wyrmblood_reaver` (Umbral Sword line)

Fantasy: a hunter who pays for every strike with his own blood. His silhouette stays Umbral (long
coat, dark blade) but the blade is now a fang and his veins glow.

### Character sheet

One PNG per animation, all in `desgin/class cr/DRG/wr/`, same layout as the other presets: rows of
poses, 4 direction columns (front / right / back / left), plain black background, character about
58-60 px tall in a 160 px cell, feet near the bottom.

Files needed (same names as the other presets so the game can play them):
```

```
walk1.png    WALK 2.png    ATK1.png    ATK2.png    DASH.png    HIT.png
SK1.png      SK2.png       SK3.png     SK4.png     SK5.png     SK6.png
UT.png       VFX.png
```

```
Positive prompt for the sheet:
```

```
Top-down 3/4 pixel art character sprite sheet for a dark-fantasy action RPG, one warrior shown
in many poses arranged in a grid, 4 direction views (front, right, back, left) per row, plain
black background, no text, no labels.

The warrior: lean agile frame, messy black hair, pale skin, glowing crimson eyes, long tattered
black coat with a dark red dragon-scale trim on the shoulders and cuffs, exposed forearms marked
with glowing red veins, dark leather straps across the chest, holding a short curved dragon-fang
blade with a molten red edge.

Poses: idle breathing stance, walking cycle, slashing forward, dashing low, taking a hit, and
casting poses with one hand raised and red energy gathering in the palm.

Art style: crisp pixel art, strong crimson rim light, dark shadows, limited palette of black,
charcoal grey, deep crimson and ember orange, clean readable silhouette, game sprite sheet
```

```
### VFX strips

`desgin/VFX/DRG/`, one sheet per effect, right-facing strips (the game rotates them):

| File | What it shows |
|---|---|
| `SK1` | A dash-bite streak: a long crescent fang slash, red trail behind |
| `SK2` | A blood-pact pact circle on the ground, cracked rune ring, red |
| `SK3` | Scales flinging off: small scale shards burst outward |
| `SK4` | A heavy rend: two huge claw gouges tearing downward |
| `SK5` | A radial blood burst from a wound, droplets flying |
| `SK6` | A vein burst: a ring shockwave of red liquid energy |
| `UT` | An awakening pillar: a column of red light rising from a spreading pool |
| `VFX` | Blood droplets falling and splashing (generic cast VFX) |

Positive prompt for one VFX strip:
```

```
Top-down pixel art VFX sprite sheet for a dark-fantasy action RPG, a horizontal strip of 6 frames
showing one effect progressing left to right, plain black background, no text, no labels.
The effect: [DESCRIBE ONE EFFECT ONLY]. Bright crimson and ember orange glow, sharp pixel edges,
transparent-looking background, game VFX asset sheet.
```

```
---

## 2. Wyrmplate Warden — `wyrmplate_warden` (Aegis Guardian line)

Fantasy: a knight who takes damage and turns it into armour plates that grow on his body. His
silhouette stays Aegis (shield-first, heavy) but the shield becomes a dragon-plated guard and his
body visibly scales up as the armour grows.

### Character sheet

`desgin/class cr/DRG/wr2/` (or `wp/`), same file list and layout as above.

Positive prompt:
```

```
Top-down 3/4 pixel art character sprite sheet for a dark-fantasy action RPG, one heavily armoured
knight shown in many poses arranged in a grid, 4 direction views per row, plain black background,
no text, no labels.

The knight: broad heavy frame, full plate armour in dark steel and black, a collar of thick
overlapping dragon scales around the shoulders and chest, a horned dragon-head pauldron on the
left shoulder, glowing orange cracks between the plates, a large round dragon-scale shield with
spiked rim in the right hand, a short heavy blade in the left, tattered dark tabard hanging below.

Poses: idle with shield up, walking slowly with weight, shield bash forward, raising the shield
to absorb a hit, flinging scales outward, and a casting pose where the armour plates flare open.

Art style: crisp pixel art, strong orange glow from the plate cracks, heavy dark shadows, limited
palette of black, dark steel, burnt orange and bone white, chunky readable silhouette, game sprite
sheet
```

```
### VFX strips

`desgin/VFX/DRG/`, second prefix:

| File | What it shows |
|---|---|
| `WP1` | A shield bash impact: a heavy arc of orange sparks |
| `WP2` | Plates knitting together: a ring of interlocking scale shapes |
| `WP3` | An armour shudder: a hexagonal plate barrier flashing |
| `WP4` | A ground slam: a cracked stone ring with orange glow from below |
| `WP5` | A taunt roar: a wide warning arc with a dragon head silhouette |
| `WP6` | A barrier dome: a heavy dome of orange light |
| `WPUT` | A carapace growth: the knight swelling, plates spreading outward |
| `WP VFX` | Heavy footfall dust with orange embers |

---

## 3. Eclipse Scribe / Void Mirror — `eclipse_scribe` (Astral Weaver line)

Fantasy: a scribe who steals a piece of every hit and throws it back as a mirrored beam. Silhouette
stays Astral (hooded robe, floating) but the robe is now black-and-red and the codex is replaced by
a cracked blood-mirror.

### Character sheet

`desgin/class cr/DRG/es/`, same file list and layout.

Positive prompt:
```

```
Top-down 3/4 pixel art character sprite sheet for a dark-fantasy action RPG, one robed figure shown
in many poses arranged in a grid, 4 direction views per row, plain black background, no text, no
labels.

The figure: a slim hooded scribe in a long black robe lined with deep crimson, the hood shadowing
the face with two glowing red slits for eyes, floating slightly off the ground, long sleeves
trailing like liquid shadow, holding a cracked oval blood-mirror frame in one hand and a thin bone
quill in the other, faint red mist orbiting the figure.

Poses: idle hovering, drifting forward, casting with the mirror raised, pulling the mirror to the
chest, throwing the quill, and a casting pose where the mirror cracks and light pours out.

Art style: crisp pixel art, crimson and violet rim light, deep shadows, limited palette of black,
deep crimson, violet and pale bone white, elegant readable silhouette, game sprite sheet
```

```
### VFX strips

`desgin/VFX/DRG/`, third prefix:

| File | What it shows |
|---|---|
| `ES1` | A mirror beam: a straight crimson line snapping outward |
| `ES2` | A steal: red droplets pulled from an impact toward a point |
| `ES3` | A mirror crack: a spiderweb of red cracks spreading |
| `ES4` | A beam returning: a line bouncing back along its own path |
| `ES5` | A stolen-shard projectile: a shard of red glass spinning |
| `ES6` | A big return beam: a wide reflected column of crimson light |
| `ESUT` | A constellation of the wyrm: several red star points linked by lines, then flaring |
| `ES VFX` | Mirror dust motes drifting |

---

## Build commands (after the art arrives)
```

```
node tools/build-player.js wr        # Wyrmblood Reaver
node tools/build-player.js wp        # Wyrmplate Warden
node tools/build-player.js es        # Eclipse Scribe
node tools/build-vfx.js              # picks up the DRG set once added to SETS in build-vfx.js
node tools/build-icons.js            # after icons land in desgin/ICON SKILL/DRG/
```

```
Each preset must end up normalised to canvas 160x160, pivot (80,140), neutral body about 58-59 px,
with `atlas.json` written. If a preset uses per-sheet options, add them next to the preset in
`tools/build-player.js` following the pattern of `PRESETS.vs` (it uses `liftFx` and `nearestBody`).

## Splash + emblem (class-select screen)

Also needed for each class: `<id>_splash.png` (2:3, black background) and `<id>_emblem.png` (1:1,
black background), placed at `desgin/UI/class/`, then `node tools/build-class-art.js`.

**Wyrmblood Reaver emblem**
```

```
Pixel art class emblem icon: a curved dragon fang dripping red, crossed with a crimson slash
sigil, dark iron crest with glowing red edges, centred, isolated on plain pure black background,
no text, crisp pixels, high resolution
```

```
**Wyrmplate Warden emblem**
```

```
Pixel art class emblem icon: a dragon head made of overlapping armour scales with an open jaw,
dark steel crest with glowing orange cracks, centred, isolated on plain pure black background,
no text, crisp pixels, high resolution
```

```
**Eclipse Scribe emblem**
```

```
Pixel art class emblem icon: an oval cracked mirror reflecting a red star, dark frame with
crimson edges, centred, isolated on plain pure black background, no text, crisp pixels, high
resolution
```

```
```

Wyrmblood Reaver — SKILL + VFX prompts

ใช้รูปแบบเดียวกับ ECLIPSE_ONLINE_Skill_VFX_Prompts.pdf ของเจ้าของ

Class: `wyrmblood_reaver` · Umbral Sword line · secret tier 4

โครงสร้างการใช้ (2 ทางแยกกัน)

ทางที่ 1 - ซิลด์ท่า (สกิล): แนบรูปตัวละคร + MASTER PROMPT ตัวละคร + SKILL BLOCK

-> เอฟเฟกต์ถูกวาด **อยู่ในภาพ** เพราะเกมวาดตัวละครกับ VFX พร้อมกัน

ทางที่ 2 - VFX ล้วน: ไม่แนบรูป + MASTER VFX PROMPT + VFX BLOCK

-> ต้องระบุ PRIMARY / SECONDARY / ACCENT สี และห้ามมีตัวละคร

ต้องการต่อคลาส: walk, idle, atk1, atk2, dash, hit, sk1-sk6, ut + VFX 8 strip

1. MASTER PROMPT - Character Skill Sheet

```
Use the uploaded character sprite sheet as the EXACT and ONLY visual character reference.
Create a combat skill animation sprite sheet for the exact same character for ECLIPSE ONLINE,
a 2D isometric pixel-art action RPG.

The uploaded image is the locked character model. DO NOT redesign the character.
Preserve exactly: face, eyes, hairstyle, hair shape, skin tone, head size, body proportions,
armor, clothing, coat, cape, boots, gloves, signature weapon, weapon shape, weapon size,
color palette, outline thickness, pixel density, shading style, lighting style, silhouette.

ONLY change: combat pose, movement, weapon movement, casting movement, defensive pose,
and class-specific skill VFX.

CHARACTER: lean agile warrior, messy black hair, pale skin, glowing crimson eyes, long tattered
black coat with dark red dragon-scale trim on the shoulders and cuffs, exposed forearms with
glowing red veins, dark leather straps across the chest, a short curved dragon-fang blade with a
molten red edge.

SPRITE SHEET: ROW 1 = FRONT / SOUTH, ROW 2 = BACK / NORTH, ROW 3 = LEFT / WEST, ROW 4 = RIGHT / EAST.
6 frames per row. Keep the character centered, same scale, same camera distance, never crop.

ANIMATION: frame 1 = preparation / neutral, frame 2 = wind-up, frame 3 = action begins,
frame 4 = strongest action / impact, frame 5 = follow-through, frame 6 = recovery.

TRUE TRANSPARENT BACKGROUND ONLY. NO background, floor, environment, character shadow, enemy, UI,
text, labels, grid, borders, separator lines, watermark, or logo.

PIXEL ART: crisp pixel art, hard pixel edges, no anti-aliasing, no blur, no 3D rendering,
no realistic rendering, no painterly rendering.

CHARACTER CONSISTENCY: treat the uploaded reference as a locked model sheet. The exact same
character must appear in every frame. Do not add or remove equipment. Only animate the existing
character.

Output ONLY the clean sprite sheet, ready for HTML5 Canvas 2D.
```

```
---

## 2. SKILL BLOCKS - ตัวละครทำท่า (แนบรูปเสมอ)

ต่อทุกบล็อกด้วย:
```

```
Keep the exact character design from the uploaded reference. Use only the existing signature weapon
and equipment. Do not add enemies or environment. Transparent background only. The skill animation
must remain readable, consistent, and production-ready for HTML5 Canvas.
```

```
### SK1 Crimson Fang
```

```
CLASS: WYRMBLOOD REAVER   SKILL: Crimson Fang
Fast predatory lunge bite with the fang blade pointed ahead of the body; frame 4 strongest;
a thin crimson streak trailing the blade.
```

```
### SK2 Blood Pact
```

```
CLASS: WYRMBLOOD REAVER   SKILL: Blood Pact
Self-burn ritual: one hand rises then presses to the chest, veins flaring brightest on frame 4,
head tilted back; the glow stays inside the body silhouette.
```

```
### SK3 Scale Shed
```

```
CLASS: WYRMBLOOD REAVER   SKILL: Scale Shed
Armour shed: shoulders hunch, dark red dragon scales burst off the shoulders and arms, arms spread
wide on frame 4 with small scale shards around the body.
```

```
### SK4 Wyrm Rend
```

```
CLASS: WYRMBLOOD REAVER   SKILL: Wyrm Rend
Violent two-handed downward rend; blade raised high on frames 1-2, dragged down through frame 4
with a crimson gouge trail along the blade path; the most violent pose set on this character.
```

```
### SK5 Vein Thrust
```

```
CLASS: WYRMBLOOD REAVER   SKILL: Vein Thrust
Clean straight thrust with the fang blade, arm fully extended on frame 4; minimal wind-up,
a narrow crimson line trailing the blade tip.
```

```
### SK6 Blood Harvest
```

```
CLASS: WYRMBLOOD REAVER   SKILL: Blood Harvest
Draining strike: the blade is dragged back through a wound, crimson droplets pulled along the
blade toward the character; frame 4 strongest with droplets mid-air.
```

```
### UT Dragon Blood Awakening
```

```
CLASS: WYRMBLOOD REAVER   SKILL: Dragon Blood Awakening-ULTIMATE
Massive ultimate transformation; kneels head-down on frame 1, rises with every vein blazing by
frame 3, head tilted fully back with the blade planted point-down on frame 4; ultimate scale,
96x96 px per frame.
```

```
### ATK1 / ATK2 / DASH / HIT / IDLE

ใช้ MASTER + บล็อกจาก art-prompts-wyrmblood-reaver.md หัวข้อ 2 (แอนิเมชันทั่วไป)

---

## 3. MASTER PROMPT - VFX Sprite Sheet (ไม่แนบรูป)
```

```
Create a production-ready 2D pixel-art VFX sprite sheet for ECLIPSE ONLINE, a fantasy isometric
action RPG.

VFX ONLY. Do NOT create a character, enemy, weapon, environment, floor, scenery, or UI.
The VFX must be independently layerable over a character sprite in HTML5 Canvas 2D.

SKILL: [SKILL NAME]    CLASS: WYRMBLOOD REAVER
VFX TYPE: [SLASH / DASH / PROJECTILE / AOE / BARRIER / MAGIC / EXPLOSION / HEAL / RITUAL]

Design a clear readable game effect with a strong silhouette and obvious
start -> charge -> impact -> end timing.

PIXEL ART: crisp pixel art, hard pixel edges, no anti-aliasing, no blur, no 3D, no painterly
rendering. Use hard pixel clusters and controlled color ramps.

COLOR: Primary: deep crimson   Secondary: ember orange   Accent: black
Do not introduce unrelated colors.

SPRITE FORMAT: 4 rows (South, North, West, East), 6 frames per row.
Non-directional AOE / ground VFX may use a single animation row.

ANIMATION: frame 1 = initial appearance / charge, frame 2 = energy forming, frame 3 = expansion,
frame 4 = maximum effect / impact, frame 5 = follow-through / particles, frame 6 = fade out.

TRUE TRANSPARENT BACKGROUND ONLY. NO white, black, pink or colored backdrop. NO floor, ground
texture, scenery, character shadow, UI, text, labels, borders, grid, watermark, or logo.

Do not create a fake character silhouette. Do not include hands, body, face, armor, or weapon.

Output ONLY the clean VFX sprite sheet.
```

```
---

## 4. VFX BLOCKS (เติมใน MASTER ข้างบน - ไม่แนบรูป)

ต่อทุก block:
```

```
VFX ONLY. Do not create character, enemy, weapon, environment, floor, or UI. Transparent background
only. Crisp hard-edged pixel art. VFX must be readable and independently layerable over a
character sprite.
```

```
| ไฟล์ | เติมใน MASTER VFX |
|---|---|
| SK1 | `SKILL: Crimson Fang   VFX TYPE: SLASH`<br>`Fast sharp crescent fang slash of compressed blood energy;
crimson core, orange edge, short fragments.` |
| SK2 | `SKILL: Blood Pact   VFX TYPE: RITUAL`<br>`Cracked rune pact circle burning on the ground; the ring closes
then ignites.` |
| SK3 | `SKILL: Scale Shed   VFX TYPE: MAGIC`<br>`Small dark red dragon scale shards flinging outward in a burst.`
|
| SK4 | `SKILL: Wyrm Rend   VFX TYPE: SLASH`<br>`Two huge claw gouges tearing downward through the air; heavy
crimson trail.` |
| SK5 | `SKILL: Vein Thrust   VFX TYPE: PROJECTILE`<br>`A straight red thrust streak with a bright molten tip and
short tail.` |
| SK6 | `SKILL: Blood Harvest   VFX TYPE: MAGIC`<br>`Crimson droplets pulled inward along a line toward a point,
then compressing.` |
| UT | `SKILL: Dragon Blood Awakening   VFX TYPE: AOE`<br>`A column of red light rising from a spreading pool on
the ground; ultimate scale.` |

---

## 5. Passive icons (2)
```

```
Use the uploaded character sprite sheet as the visual reference for class identity. Create a square
pixel-art passive-skill icon.
PASSIVE: Dragon's Thirst   CLASS: WYRMBLOOD REAVER
A gauntlet hand with black blood draining from the fingers into a crimson pool, framed by two
curved dragon fang shapes. Class palette: black, deep crimson, ember orange.
True transparent background. No text, letters, numbers, or UI frame. Readable at 32x32 and 64x64.
```

```
PASSIVE: Bloodless Night   CLASS: WYRMBLOOD REAVER
A cracked dragon fang standing upright with a thin crimson line running through it.
Class palette: black, deep crimson, ember orange. Transparent background. No text, no UI frame.
Readable at 32x32 and 64x64.
```

```
---

## 6. Splash + emblem

ใช้จาก art-prompts-dragon-secret-classes.md - Wyrmblood Reaver splash + emblem

---

## 7. Build
```

```
node tools/build-player.js wr      # หลังเพิ่ม preset 'wr' ใน build-player.js
node tools/build-vfx.js            # หลังเพิ่ม set 'wr' ใน build-vfx.js
node tools/tests/sprites.test.mjs
```

```
ตรวจผล: `tools/viewer.html`
```
